## **Long Island Brain Tumor Walk**

In 2014, Tumor Tacklers walked together at the first Long Island Brain Tumor Walk. Since then, we have raised over \$30,000 towards finding a cure. The inspiration for this team, Jon-Michael Lasher, was diagnosed in 2009 and bravely fought his tumor for ten years. Through three craniotomies, radiation and multiple courses of chemotherapy, he never lost his will to live or optimistic outlook. Jon shared his story, rallied around others who fought and always found the strength to share a smile and kind word with all who knew him. We will be joined by family and friends as we walk on September 14<sup>th</sup> to honor Jon's memory and his dedication to finding a cure. Please consider joining us or making a donation. Thank you for making a difference. Go Tumor Tacklers!
